

Don't Stop the Presses!

An evening to celebrate free speech

From *Charlie Hebdo* in Paris to the *Rio Grande Sun* here in Northern New Mexico, the press and free speech are under attack. Join with the New Mexico Foundation for Open Government, the New Mexico Press Association and *The Santa Fe New Mexican* by sponsoring a screening of *The Sun Never Sets*. This critically acclaimed documentary showcases Espanola's *Rio Grande Sun* newspaper and its fearless, honest investigative reporting. *The Sun* was recently the victim of an arson attack, and *The New Mexican*, the NMPA and FOG stand in solidarity with *The Sun*. We are proud to present the film and host an interactive panel of First Amendment experts discussing how to protect and celebrate free speech!
